[Docket Number FRA-2021-0102]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on October 11, 2021, the Golden Gate Railroad Museum (GGRM) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR 230.17, *One thousand four hundred seventy-two (1472) service day inspection*. FRA assigned the petition Docket Number FRA-2021-0102.

For locomotive #2472, GGRM requests to extend the period in which the 1472 service day inspection must be completed for one year until June 1, 2023. GGRM states that the annual inspection of #2472 was completed, but the extension would allow GGRM to recover from schedule delays and revenue losses caused by the COVID-19 pandemic.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments.
